SSAAM Fall Conference

November 27, 28 & 29, 2019

Victoria Inn, Brandon Manitoba

Keynote Speaker

Thursday, 28th 2019 – Full Day Session

Dr. Patrick Carney - Well Being and Building Resiliency

Outcome research from the areas of social-emotional learning, active living and the field of positive psychology has contributed substantively to the promotion of well-being in our schools. During this interactive workshop, Dr. Carney will be taking us through the "Well Aware" model of well-being which is particularly focused on the development of resiliency skills. The Well Aware model pays particular attention to the professional relationships teachers have with their students to teach and to model the skills for well-being in every classroom. In addition, Dr. Carney will bring consideration to the concept of "sustainable" well-being with regard for our environment and our global family.

Dr. Carney is the Senior Psychologist & Mental Health Lead at Simcoe Muskoka Catholic District School Board. He has published extensively and provided workshops across Canada, in the Northwest Territories and internationally. In 2015 he authored a book for teachers entitled "Well Aware – Developing Resilient, Active and Flourishing Students" through Pearson Canada, which became a best seller for books in education.

Wednesday November 27th 1:00 – 3:30
